Treatment Fee Guide 2026

Skin & Wellness

0161 503 0915 reception@yordental.co.uk

A note from YOR Dental

At YOR Dental, we believe that exceptional care and genuine wellbeing go hand in hand. Our fee guide is more than a price list, it is a reflection of our commitment to transparency, quality, and your individual journey.

Every treatment listed here is delivered by a highly skilled team in a calm, welcoming environment at the heart of MediaCityUK. We use only the finest materials, techniques, and technology, because you deserve nothing less.

Fees are shown as a guide and may vary based on your individual clinical needs, which will always be discussed openly with you before any treatment begins. We offer flexible payment options and are happy to create a phased plan that works with your life.

Contents

2 Preventive care & wellbeing
3 Smile aesthetics & whitening
4 Smile makeovers
5 Restorative dentistry
6 Root canal therapy
7 Dental implants
9 Extractions & oral surgery
10 Orthodontics & teeth straightening
11 Dental comfort & protection
11 Dentures and removable prosthetics
12 Diagnostics & imaging
13 Skin & facial aesthetics
14 Administrative & appointment fees
15 Wellness IV infusions
16 Private bloods & diagnostic testing

Flexible payment

We offer payment plans and phased treatment options to ensure exceptional care is accessible when you need it. Speak to our team to explore what works for you.

Appointment policy

We kindly ask for at least 48 hours' notice to change or cancel an appointment. Late cancellations may be subject to a fee. We appreciate your understanding, this protects availability for all.

YORDENTAL

Preventative care & wellbeing

Your foundation for lifelong dental health, proactive, precise, and deeply personal.

Treatment	About	From
Clarity new patient consultation *New patient examination*	Your comprehensive welcome to YOR, a thorough assessment of your oral health, aesthetics, and wellbeing, with a personalised roadmap to your ideal smile.	£83
Clarity follow-up review *Follow-up examination*	A focused check-in to monitor progress, review any changes, and keep your health plan aligned with your goals.	£54
Advice & assessment *Advise and Assessment*	Expert clinical guidance from our team, a dedicated session to explore your concerns and co-create the right pathway or you.	£65
Radiance GBT clean *Initial GBT clean*	Our Guided Biofilm Therapy clean uses ultrasonic precision and disclosing technology to remove biofilm, staining, and calculus, a deeply clean, deeply comfortable experience.	£126
Polish & perfect clean *Polish and perfect clean*	A targeted hygiene appointment to refresh, polish, and protect your teeth, ideal for maintenance between treatments, ideally 3 monthly.	£102
Intensive stain revival *Intensive stain removal*	A specialist session to lift surface staining and restore the natural brightness of your enamel, results you can see immediately.	£158
Extended hygiene session *Dental hygienist (extended)*	A longer hygiene appointment for those requiring more thorough care, unhurried, attentive, and tailored to you.	£97.50
Direct access hygiene *Dentist hygiene (direct access)*	See our skilled hygienist without a dentist referral, flexible, accessible preventive care at its best.	£126
Periodontal deep clean *New patient examination*	A clinical deep clean targeting the gum and bone environment, essential care for long-term periodontal health and stability for the teeth and bones.	£184
BioShield Fluoride Application *Topical fluoride*	A professional fluoride treatment to strengthen enamel, reduce sensitivity, and guard against decay, a small step with lasting impact.	£48
BioShield Fissure Seal *Fissure sealant*	A protective coating applied to the grooves of back teeth, guarding against decay in hard-to-reach areas, preventive dentistry at its most effective.	£47

YORDENTAL

Smile and aesthetic whitening

Crafted transformations that honour your natural beauty and amplify your confidence.

Treatment	About	From
Illuminate home whitening *Teeth whitening at home*	Our bespoke take-home whitening system, custom trays and professional-grade gel to brighten your smile at your own pace, safely and effectively.	£394
Illuminate enlighten whitening *Teeth whitening (Enlighten)*	The gold standard in whitening, the Enlighten system guarantees results, achieving shades beyond what in-chair treatments alone can accomplish.	£656
Illuminate Zoom whitening *Teeth whitening (Zoom)*	A premium in-chair whitening experience using advanced Zoom technology, dramatic results in a single session, with a radiant finish from day one.	£520
Glow-Up Composite Bonding *Bonding Glow Up (inc. whitening syringe)*	Tooth-coloured composite artfully shaped and polished to close gaps, refine chips, or refresh proportions, including a whitening syringe to enhance your result.	£200
Sculpt composite bonding *Composite bonding (from single tooth)*	Hand-crafted composite bonding by our aesthetic clinicians, transforming individual teeth with precision and an eye for natural beauty. Priced from a single tooth.	£250
Sculpt composite veneer *Composite veneer (single)*	A beautifully shaped and polished composite veneer, chairside, instantly improving shape, colour, and symmetry without the need for a lab.	£420-£525
Sculpt lab veneer *Lab-made composite veneer*	A laboratory-crafted composite veneer for superior finish and longevity, where artistry meets science for a truly seamless result.	£570
Lumière Porcelain Veneer *Porcelain veneer*	Ultra-thin porcelain veneers hand-fabricated to our precise specifications, the pinnacle of aesthetic dentistry, blending light and translucency for a lifelike, luminous smile.	£919
Contour edge bonding *Edge bonding (6 teeth)*	Composite applied precisely to the incisal edges of six teeth, a minimally invasive way to achieve length, symmetry, and smile harmony.	£1,575
Composite repair *Composite repair*	A swift, skilled repair to existing composite work, restoring aesthetics and function with minimal intervention.	£131

YORDENTAL

Smile makeovers

Comprehensive, co-designed transformations, your dream smile, delivered with care.

Treatment	About	From
Mini makeover *Mini smile makeover (4 full comp veneers and canine tidy up)*	Four full composite veneers with a canine refinement, a targeted transformation that creates balance and symmetry across your smile arc.	£2,205
Enhanced makeover *Enhanced smile makeover (8 teeth composite)*	Eight-tooth composite makeover with a full smile redesign, crafted for those seeking a complete aesthetic refresh with natural, lasting results.	£3,780
Full makeover *Full smile makeover (10 teeth composite veneers)*	Our most comprehensive composite transformation, ten veneers, fully customised to your facial features, skin tone, and smile aspirations.	£4,452
Diagnostic wax-up preview *Diagnostic wax-up (per tooth)*	A wax model of your proposed smile, created before any treatment begins, visualise your result and co-design your transformation with complete confidence.	£38 per tooth

YORDENTAL

Restorative dentistry

Restoring strength, function, and beauty, with materials and techniques chosen for longevity.

Treatment	About	From
Restore composite filling (small/medium) *Composite filling (S/M)*	A tooth-coloured composite restoration matched to your natural enamel, comfortable to place, beautiful in result, and built to endure.	£263
Restore composite filling (large) *Composite filling (L)*	A larger composite restoration, meticulously layered and contoured for strength and aesthetics, preserving as much natural tooth as possible.	£368
YOR ceramic crown *Ceramic crown/ Emax Crown*	A full-coverage ceramic or Emax crown, precision-milled or lab-crafted to restore a damaged tooth while blending seamlessly with your surrounding dentition.	£919
YOR porcelain onlay *Onlay porcelain*	A minimally invasive porcelain restoration covering the biting surface, preserving more tooth structure than a crown while delivering the same precision fit.	£919
YOR ceramic bridge *Bridge/ bridge single unit*	A fixed, natural-looking ceramic bridge to replace a missing tooth, crafted to exact proportions and shade-matched for an undetectable result.	£919
Recement crown *Recement crown*	Precise re-bonding of a crown or bridge using advanced dental cements, restoring function and fit with care and accuracy.	£87
Temporary dressing *Temporary dressing*	A carefully placed interim dressing to protect a tooth between appointments, keeping you comfortable and your treatment on track.	£100
Occlusal refinement *Occlusal equilibration*	Fine adjustment to your bite to eliminate interferences, reduce strain, and bring harmony to your jaw function.	£29
Post & core build-up *Post*	An internal post placed to restore a heavily broken-down tooth prior to crown placement, laying a strong foundation for a lasting result.	£102

YORDENTAL

Root canal therapy

Preserving your natural tooth, because nothing replaces what nature gave you.

Treatment	About	From
Preserve root treatment (anterior) *RCT anterior / root canal*	Root canal therapy to front teeth, precision endodontics in a calm, supported environment, saving your natural tooth for years to come.	£391-£411
Preserve root treatment (premolar) *RCT premolar*	Expert root canal therapy to premolar teeth, thorough cleaning and sealing of the root system with the goal of complete retention.	£508
Preserve root treatment (molar) *RCT molar*	Root canal therapy to molar teeth, our most complex endodontic work, performed with care, skill, and the very best instruments.	£594
Complex re-treatment (anterior) *Complex re-RCT anterior*	Re-treatment of a previously root-filled anterior tooth, addressing persistent infection with advanced techniques and a renewed commitment to saving your tooth.	£604
Complex re-treatment (premolar) *Complex re-RCT premolar*	Re-treatment of a premolar root canal, detailed, skilled reinstrumentation to resolve complex or previous treatment failures.	£683
Complex re-treatment (molar) *Complex re-RCT molar*	Our highest-complexity root treatment, re-treating a molar root canal with precision endodontic protocols and a commitment to natural tooth preservation.	£788

YORDENTAL

Dental implants

Permanent, natural-feeling tooth replacement, rooted in science, refined with artistry.

Treatment	About	From
Foundation Implant + Crown *Dental Implant placement + crown*	A single titanium implant and custom ceramic crown, the closest thing to a natural tooth, placed with precision and designed to last a lifetime.	£2,573
Healing Abutment *Healing abutment*	Placed after implant surgery to guide healthy tissue formation, an essential step in achieving a beautifully natural gum contour around your new tooth.	£271
Sinus Lift *Sinus lift*	A specialist procedure to build bone volume in the upper jaw, creating the optimal foundation for implant placement where bone has been lost.	£1,313
Sinus Lift with Bone Graft *Sinus lift with bone graft*	A combined sinus lift and bone graft procedure, maximising bone volume and quality for complex upper jaw implant cases.	£2,027
Block Bone Graft *Block bone harvesting and graft*	Harvesting and placing a block of bone to restore significant bone defects, a specialist surgical procedure supporting long-term implant success.	£704
Bond Graft (Small) *Bond Graft Small*	A targeted bone graft to augment a small deficiency around an implant site, precise, purposeful, and performed with care.	£415
Bond Graft (Large) *Bond Graft Large*	A larger bone graft procedure to restore substantial bone loss, creating the solid foundation your implant needs to integrate and last.	£625
Soft Tissue Augmentation *Soft Tissue augmentation*	A delicate procedure to enhance the gum tissue volume and contour around implants or teeth, aesthetic and functional in equal measure.	£368
Crown Lengthening *Crown lengthening*	A surgical procedure to expose more tooth structure, enabling better restoration or revealing a more balanced, harmonious smile line.	£120
Implant Retained Denture (Lower) *Implant retained denture – lower*	A lower denture secured by implants for exceptional stability, no adhesives, no movement, just confidence to eat, speak, and smile freely.	£7,500
Implant Retained Denture (Upper) *Implant retained denture – upper*	A full upper implant-retained denture, combining the security of implants with the aesthetics of a beautifully crafted prosthetic.	£7,500

YORDENTAL

Dental implants continued

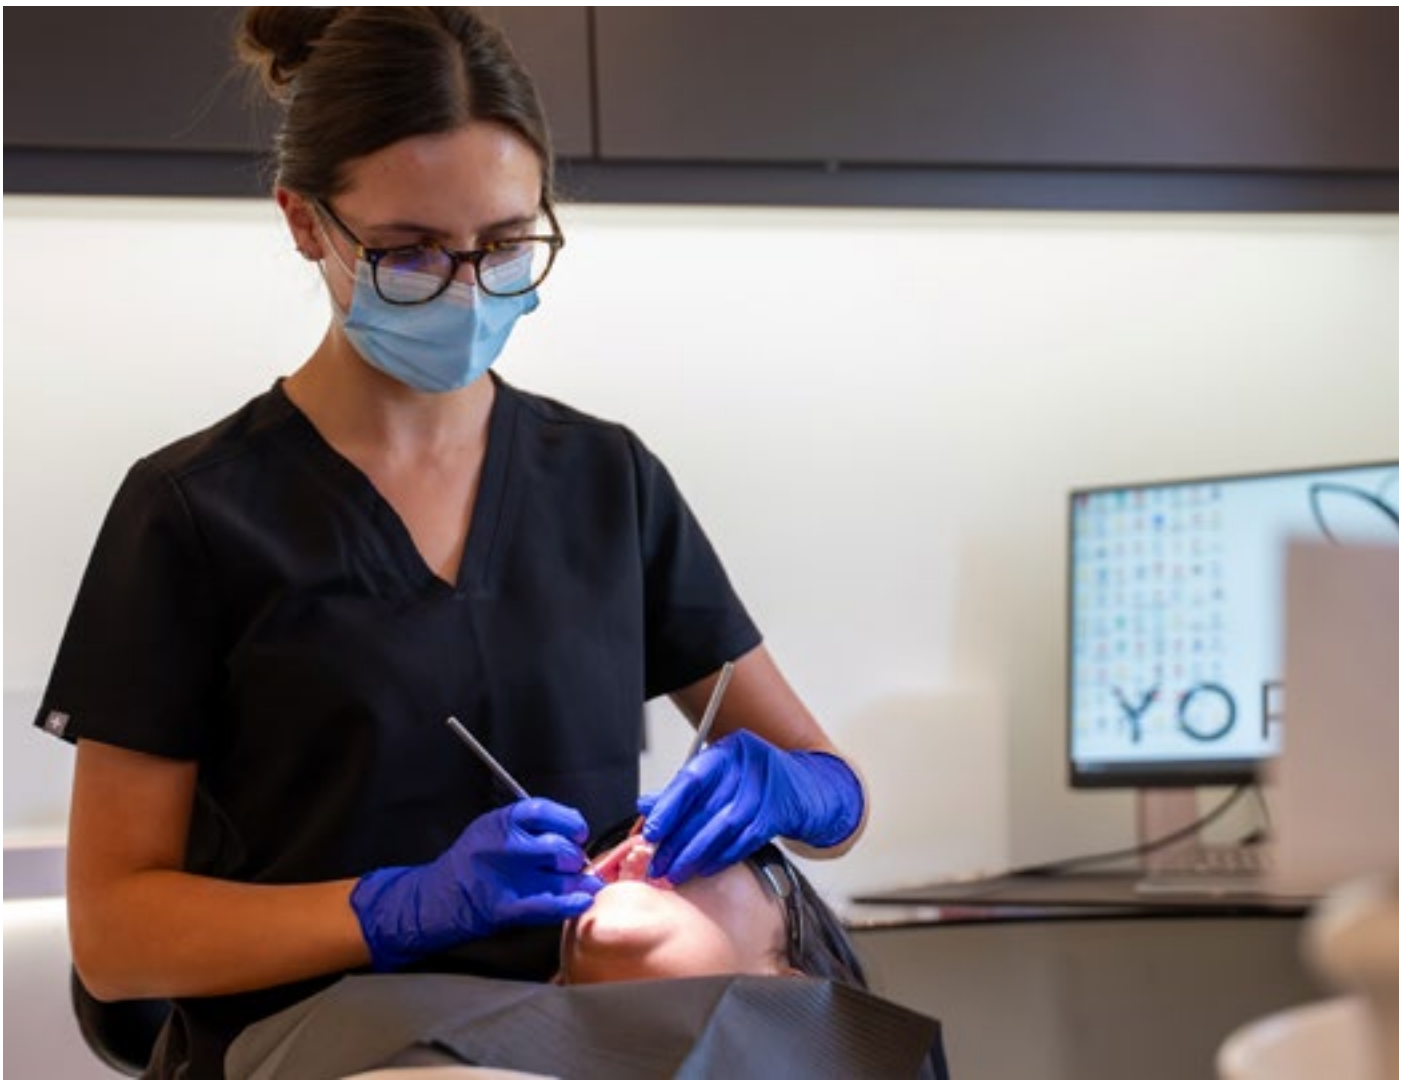
Treatment	About	From
Teeth in a Day, Lower Bridge *Teeth in a day – Lower Bridge*	A full fixed lower bridge delivered on the same day as implant placement, immediate function and aesthetics, without the wait.	£19,487
Teeth in a Day, Upper Bridge *Teeth in a day – Upper Bridge*	A full fixed upper bridge placed in a single visit, a transformative, life-changing result achieved with precision planning and surgical excellence.	£19,467
Teeth in a Day, Lower Denture *Teeth in a day – Lower denture*	A lower implant-supported denture delivered on the day of surgery, immediate stability and restored confidence from day one.	£10,382
Teeth in a Day, Upper Denture *Teeth in a day – Upper denture*	An upper implant-supported denture fitted the same day, comprehensive tooth replacement with immediate, lifechanging impact.	£10,382
Frenectomy *Frenectomy surgery*	A minor surgical procedure to release a restrictive frenum, improving function, comfort, and in some cases, smile aesthetics.	£368
Suture Removal *Suture removal*	A gentle post-surgical appointment to remove sutures and review healing, part of our commitment to supporting you through every stage of care.	£79
Surgical Guide *Surgical Guide*	A precision-milled surgical guide designed from your imaging data, ensuring implants are placed with exact accuracy and predictable outcomes.	£210

YORDENTAL

Extractions & oral surgery

Gentle, skilled, and supportive, surgical care delivered with compassion.

Treatment	About	From
Gentle Extraction *Simple extraction*	A carefully managed tooth removal in a calm, supportive environment, prioritising your comfort and recovery from first appointment to last.	£210
Complex Extraction *Complex extraction*	Surgical management of a more involved extraction, performed with skill, precision, and full post-operative support.	£302
Calm Sedation (up to 2 hours) *Sedation 2 hours*	IV sedation for those who experience dental anxiety, a deeply relaxed, comfortable experience so treatment can proceed peacefully. Extended sessions charged additionally.	£700



YORDENTAL

Orthodontics & teeth straightening

Confident alignment, achieved with the finest systems and the deepest care.

Treatment	About	From
Align Spark Clear Aligners *Spark Aligners (RRP £4,500)*	Spark's industry-leading clear aligner system, superior clarity, comfort, and precision. YOR's exclusive pricing makes world-class orthodontics accessible.	£2,999
Align Traditional Braces *Orthodontic braces*	High-quality fixed orthodontic braces for reliable, predictable tooth movement, a proven pathway to a straighter, healthier smile.	£2,200
Orthodontic Consultation *Orthodontic consultation*	A dedicated appointment to assess your smile, review straightening options, and design your personalised treatment pathway.	£100
Retain Fixed Retainer *Fixed Retainer Upper/Lower*	A discreet bonded retainer placed behind the teeth to hold your result, protecting your investment for the long term.	£173 each
Retain Removable Retainer *Removable retainer single*	A high-quality clear removable retainer, comfortable, precise, and essential for maintaining your beautifully aligned smile.	£194
Retain 3-Set Retainer Pack *3 sets of retainers*	Three sets of removable retainers, an investment in longevity, ensuring your smile stays exactly where it should be.	£473
Retainer Recement *Retainer Re Cement*	Swift, careful re-bonding of a fixed retainer, keeping your retention protocol intact and your teeth perfectly placed.	£87

YORDENTAL

Dental comfort & protection

Safeguarding your smile while you sleep, play, and live your life to the full.

Treatment	About	From
Guardian Night Guard *Night Guard / Hard Acrylic Splint*	A precision-fitted protective splint to prevent grinding damage, relieve jaw tension, and support long-term joint health, designed for nightly use.	£250-£295
Athlete's Shield *Sports guard*	A custom-fitted mouthguard offering superior protection for active lifestyles, far superior to over-the-counter options in fit, comfort, and safety.	£250
YOR CBT Bite Therapy *CBT*	Cognitive Behavioural Therapy-informed support for dental anxiety or bruxism-related stress, a unique wellbeing offering that addresses the whole person.	£158

Dentures & removable prosthetics

Beautifully crafted, precisely fitted, restoring your smile and your quality of life.

Treatment	About	From
Renew Full Denture (Upper or Lower) *Denture – Acrylic full upper/lower*	A full acrylic denture, crafted to natural proportions and shade-matched to suit your complexion, functional, comfortable, and beautifully made.	£1,260
Renew Partial Metal Denture *Denture – Partial upper/lower metal*	A chrome cobalt partial denture, lightweight, stable, and precision-engineered for a comfortable, secure fit.	£1,344
Renew Partial Resin Denture (Upper) *Denture – partial upper resin*	A resin-based partial upper denture, a natural-looking, affordable option for restoring missing teeth with care and craftsmanship.	£1,890
Renew Partial Mandibular Denture *Denture – mandibular partial resin based*	A lower partial resin denture, carefully designed for stability and aesthetics in the more challenging lower arch.	£1,171
Denture Repair *Denture repair*	Expert repair of a broken or damaged denture, carried out with precision to restore fit, function, and appearance.	£150

YORDENTAL

Diagnostics & imaging

Precision diagnosis, seeing the full picture before we begin.

Treatment	About	From
Full Arch CBCT Scan *CBCT dual arch*	A 3D cone beam CT scan of both arches, providing unparalleled diagnostic clarity for implant planning, complex cases, and detailed anatomical assessment.	£184
Full Mouth OPG X-Ray *Full mouth x-ray (OPG)*	A panoramic radiograph providing a complete overview of your teeth, bone, and jaw structures, an essential diagnostic tool.	£79
Periapical X-Ray *Small x-ray*	A targeted small x-ray to assess specific teeth or areas in detail, quick, precise, and low radiation.	£15
Study Models *Study Models*	Precise plaster models of your teeth used for planning, diagnosis, and case presentation, an essential step in complex treatment.	£83
Mounted Study Models *Study models Mounted*	Study models mounted on an articulator to analyse your bite and occlusion, used in planning orthodontic, prosthetic, and aesthetic cases.	£108

YORDENTAL

Skin & facial aesthetics

Where dental wellness meets facial harmony, science-led treatments for radiant, confident skin.

Treatment	About	From
Radiance Consultation *Skin Care Consultation*	A dedicated skin assessment with our aesthetics practitioner, understanding your concerns, goals, and the best evidencebased pathway to radiant skin.	£53
Sculpt Botox, 1 Area *Botox 1 area*	Precise muscle-relaxing treatment to soften expression lines in one area, a natural, refreshed result that enhances without altering.	£184
Sculpt Botox, 2 Areas *Botox 2 areas*	Anti-wrinkle treatment across two areas, carefully mapped to your facial anatomy for a balanced, harmonious effect.	£289
Sculpt Botox,3 Areas *Botox 3 areas*	Our most comprehensive anti-wrinkle treatment, three areas addressed with precision, delivering a refreshed and naturally youthful result.	£368
Renew Obagi Chemical Peel *Obaji Chemical Peel*	A medical-grade Obagi chemical peel, stimulating cellular renewal, addressing pigmentation, fine lines, and texture for noticeably improved skin quality.	£105
Renew SkinPen Microneedling (Single) *SkinPen Microneedling x1 session*	A single SkinPen microneedling session, using controlled micro-channels to trigger the skin's own collagen production for visible rejuvenation.	£263
Renew SkinPen Microneedling (Course of 6) *SkinPen Microneedling x6 sessions*	A full course of six SkinPen microneedling sessions, the optimal protocol for sustained, progressive improvement in skin tone, texture, and vitality.	£1,260
BioJuve Biostimulator *BioJuve*	An advanced biostimulator treatment that supports deep skin regeneration, promoting collagen and elastin renewal for long-term skin health from within.	£420
BioJuve Starter Kit *BioJuve Starter Kit*	Your take-home BioJuve essentials, expert-selected products to maintain and extend the results of your in-clinic treatment.	£63

YORDENTAL

Performance & Recovery Drip *Sports Performance & Recovery Infusion*	Designed for active lifestyles, supporting muscle recovery, metabolic strength, and fitness regeneration. Helps reduce muscle soreness and supplies essential nutrients for peak performance. Includes B-Vitamins, Vitamin C, Glucose, and B12 Hydroxocobalamin.	£350
Infinite Light Push *Premium Add-On, Glutathione Boost*	Add to any infusion for a powerful antioxidant push supporting cellular detoxification, brighter skin, reduced oxidative stress, and overall vitality enhancement.	£80

YORDENTAL

Private bloods & diagnostic testing

Advanced laboratory testing available through YOR Dental,
precision health insights to complement your oral and overall wellbeing.

All tests are carried out in partnership with Aqua Medical Laboratories (Doctor Wellness) and are available to book through YOR Dental. A consultation with our team will help identify the most relevant panel for your individual needs.

Treatment	About	Biomarkers/ Tests included	From
Initial Health Consultation *Complimentary, suitability assessment*	A complimentary consultation to understand your health goals and identify the most beneficial blood test for you. Required before your first set of bloods.		Complimentary
The Energy Factor *Fatigue & Energy Screening*	A comprehensive panel uncovering the root causes of persistent fatigue, assessing hormones, nutrients, thyroid, and adrenal biomarkers to create a personalised energy recovery plan.	CBC · Vitamin D · B12 · Magnesium · Folate · Iron · Ferritin · Transferrin · DHEA · Serum Cortisol · Testosterone · TSH · FT3 · FT4 · Adrenal Stress Index (saliva)	£103
Factor X Test *Genetic Wellness Screening, 33 Conditions*	A saliva DNA screen evaluating predisposition to 33 health conditions across 10 categories, empowering proactive, preventive steps based on your unique genetic blueprint.	Cardiovascular: AF, CAD, Cholesterol, Stroke, MI · Metabolic: Hypothyroidism, Obesity, T2 Diabetes · Cancer Risk: Breast, Lung, Colorectal, Prostate, Endometrial · Neurological: Alzheimer's, Parkinson's, MS, Migraine · Bone & Joint · GI · Eye · Respiratory · Gynaecological · Skin	£311
Factor Y Test *Nutrition & Sports Performance Genetics*	A DNA analysis revealing how your genetic profile shapes your nutritional needs, athletic potential, and lifestyle habits, enabling you to train smarter, eat better, and perform at your peak.	Diet & Weight: macronutrient response, weight management · Deficiencies: vitamins & minerals · Eating Behaviour: snacking, caffeine · Sensitivities: lactose, gluten · Fitness: cardiovascular/metabolic, muscle strength, endurance, injury risk · Habits: alcohol, caffeine, nicotine	£311
Factor Z Test *Pharmacogenomics, Personalised Medication*	A saliva DNA test revealing how your genetics affect medication response, enabling safer prescribing, optimal dosing, and reduced risk of adverse drug reactions across 14 medical specialties.	Drug Metabolism: CYP450 enzyme activity · Drug Efficacy: response prediction, dose optimisation · Adverse Reaction Risk: genetic markers · Medication Categories: Cardiology, Neurology, Oncology, Pain Management, Psychiatry, Diabetology, Pulmonology + 7 more	£311
Food Map Sensitivity Test *IgG Food Sensitivity, 270 Foods*	An ELISA blood test measuring IgG antibodies to 270 foods and additives, providing a detailed sensitivity map to guide dietary choices and support gut health, skin, and energy.	270 foods & additives: Meats · Vegetables · Fruits · Cereals · Dairy · Eggs · Spices · Tea, Coffee, Wine · Thickening agents · Preservatives · Region-specific foods. Sensitivity categories: Not Elevated / Elevated / Highly Elevated	£363

YORDENTAL

Private bloods & diagnostic testing continued

Treatment	About	Biomarkers/ Tests included	From
Cancer Screening *Circulating Free DNA / Liquid Biopsy*	A blood-based liquid biopsy analysing circulating tumour DNA (ctDNA) for mutations across 15 HRR genes, guiding eligibility for PARP inhibitor therapy and enabling early, targeted cancer intervention.	15 HRR Genes: BRCA1, BRCA2, ATM, BARD1, BRIP1, CDK12, CHEK1, CHEK2, FANCL, PALB2, PPP2R2A, RAD51C, RAD51D, RAD51B, RAD54L · SNV & InDel mutation screening · Somatic & germline variant detection · Results within 14 working days	£POA
Molecular Allergy Test *295-Allergen Molecular Diagnostic Panel*	A blood test using molecular diagnostic technology to screen for sensitisation across 295 allergens, providing precise cross-reaction profiling to guide targeted allergy therapy.	295 allergens screened via molecular diagnostics · Blood collection + doctor review · Comprehensive allergen cross-reaction report · Customised therapeutic recommendations based on results	£397
Immunity Factor *Immune Health Screening*	A targeted blood panel assessing the key pillars of immune function, identifying deficiencies, inflammation markers, and nutrient gaps to support a stronger, more resilient immune system.	Immune Function Panel · Vitamin D · Magnesium · Folate · CBC · C-Reactive Protein (CRP) · Iron · Ferritin	£129
Skin Care DNA Test *Genetic Skincare Profile, 29 Parameters*	A saliva DNA test analysing 29 skin and hair parameters, providing genetically personalised skincare recommendations from acne and ageing to sun response and vitamin needs.	Skin & Hair (15): Acne, Alopecia, Atopic Dermatitis, Melasma, Psoriasis, Vitiligo, Wrinkles, Skin Ageing + more · Sun & Skin (4): UV Sensitivity, Sun Spots, Tanning Response · Skin Nutrition (10): Vitamins A, B6, B9, B12, C, D, E, K · Selenium & Antioxidant needs	£311
Deep Sleep DNA Test *Sleep Genetics, 10 Parameters*	A saliva DNA test revealing your genetic sleep blueprint, covering chronotype, sleep disorders, and caffeine sensitivity to provide actionable, personalised guidance for restorative rest.	Chronotype (Morning vs Evening) · Narcolepsy · Sleep Apnoea · COAD · Restless Leg Syndrome · Snoring · Quality of Sleep · Nocturnal Sleep Episodes · Caffeine-Related Insomnia · Results in 3–4 weeks with genetic counsellor review	£311
Diabetes Screening *Blood Sugar & Metabolic Health*	A blood test screening for type 1 and type 2 diabetes, detecting early changes in glucose regulation to enable timely lifestyle or medical intervention before serious complications arise.	Fasting Blood Sugar Test · Casual Blood Sugar Test · Glycated Haemoglobin (HbA1c) · Oral Glucose Tolerance Test (OGTT)	£59
Thyroid Health Screening *Thyroid Function & Antibody Panel*	A blood panel measuring the full spectrum of thyroid hormones and antibodies, diagnosing hypo/ hyperthyroidism and autoimmune thyroid conditions, and guiding targeted hormone management.	TSH · Free T4 (FT4) · Free T3 (FT3) · Thyroid Antibody Test (Graves', Hashimoto's)	£71

YORDENTAL

Private bloods & diagnostic testing continued

Treatment	About	Biomarkers/ Tests included	From
Body Builder Screening *Athletic Performance, Basic & Comprehensive*	A specialist screening package for athletes and fitness enthusiasts, assessing hormonal balance, nutritional status, liver and kidney function, and metabolic efficiency to support peak physical performance.	Basic: CBC · ESR · Testosterone (Total/Free) · LH · FSH · Insulin · SHBG · DHEA · Cortisol · TSH · FT3 · FT4 | Comprehensive adds: Liver Function · Kidney Function · Bone Health · Lipid Profile · Diabetic Screen · Factor Y Genetics	£202
Aqua Gut Microbiome Test *Stool DNA Analysis, Gut Microbiota*	A stool DNA analysis profiling your gut microbiome to detect bacterial imbalances, assess dysbiosis severity, and guide dietary, probiotic, and lifestyle interventions for optimal gut health.	Dysbiosis Index (DI): score 1–5 · Functional Imbalance Profiles: butyrate production, mucosa protection, inflammation · Bacteria Abundance Table · Results in 7–10 days · At-home stool collection kit	£397
Food & Inhalant Allergy Profile *IgE Serum Allergy, Food & Respiratory*	A blood test measuring serum-specific IgE antibodies to a broad range of food and environmental allergens, identifying true IgE-mediated allergic reactions for confident management.	Food: Dairy (eggs, milk, casein), Nuts (peanut, walnut, hazelnut, almond, cacao), Cereals, Meat & Fish, Vegetables, Fruits · Inhalant: Trees, Grasses, Animal Hair, House Dust Mite, Mould, Cockroach, Cage Birds · Total IgE included	£259
Comprehensive Oral Health Assessment *Genetic & Microbiome Dental Testing*	A dual dental test combining genetic risk profiling for periodontitis with an oral microbiome analysis, identifying inherited gum disease susceptibility and active harmful bacteria for personalised preventive care.	Test 1, Genetic Periodontitis Risk: IL-1RN gene variant · Lifelong risk score (0–5) · Test 2, Oral Microbiome: A. actinomycetemcomitans, P. gingivalis, T. forsythia, P. intermedia, T. denticola · Combination test also available · Results in 5–7 days	£181
NAD+ Test *Cellular Energy & Longevity Biomarker*	A home finger-prick blood test measuring NAD+ (Nicotinamide Adenine Dinucleotide) levels, a key cellular coenzyme linked to energy metabolism, DNA repair, and ageing, with fast results to guide supplementation.	NAD+ level measurement · Finger-prick blood sample, at-home collection kit · Lab-certified analysis · Report includes: NAD+ status, supplementation guidance, IV booster monitoring	£293
STD Screening Profiles *Sexual Health, Men's & Women's Panels*	Comprehensive sexual health screening for men and women, testing for the full range of common STIs via urine PCR, blood, and swab analysis, with confidential results and professional clinical support. Mitochondrial DNA Test *Cellular Energy, ATP & Mitochondrial Health*	A specialist panel assessing mitochondrial function at the cellular level, measuring ATP production, respiratory efficiency, and advanced biomarkers to identify energy deficiencies and support vitality and longevity.	ATP Profile: Total ATP, Mitochondrial ATP, Glycolytic ATP, Reserve Capacity · Mitochondrial Health Index: basal/max respiration, ATP turnover, proton leak · Advanced: mtDNA:nDNA ratio, PGC-1a, Nrf-2, mt4977del mutation, Lactate/ Pyruvate ratio · Mitochondrial count & integrity	£POA

YORDENTAL

Private bloods & diagnostic testing continued

Treatment	About	Biomarkers/ Tests included	From
Cortisol Awakening Response (CAR) Test *Adrenal & Stress Resilience Screening*	A saliva test measuring your cortisol surge pattern in the first hour after waking, diagnosing adrenal fatigue or hyperarousal, and providing personalised guidance on stress, sleep, and energy management.	Saliva samples: 30, 45, 60 min post-waking + midday + late-night · Cortisol surge pattern analysis · DHEAS measurement · DHEAS:Cortisol molar ratio · Adrenal resilience assessment · Personalised report: lifestyle, supplement & stress management recommendations	£POA
Gut Microbiome Plus Test *Comprehensive Gut Health, Stool DNA*	An enhanced stool DNA analysis delivering a complete picture of gut health across three domains: microbiome composition, pathogen detection, and inflammatory markers, with personalised diet and probiotic recommendations.	1. Microbiome Assessment: Beneficial bacteria (Lactobacillus, Bifidobacterium), Opportunistic pathogens (E. coli, Clostridium), Dysbiosis indicators · 2. PCR Pathogen Detection: Bacteria (Salmonella, Campylobacter, C. difficile, Shigella), Viruses (Norovirus, Rotavirus, Adenovirus), Fungi (Candida, Giardia, Cryptosporidium) · 3. Inflammatory Markers: Calprotectin, Lactoferrin, Occult Blood · Results in 7–10 days	£397
Adrenal Stress Index (ASI) *24-Hour Salivary Adrenal Profile*	A comprehensive 24-hour saliva panel measuring your cortisol rhythm, DHEA, and secretory IgA throughout the day, uncovering the hormonal root causes of fatigue, mood imbalance, poor immunity, and stress dysregulation.	4 saliva samples collected over 24 hours · Cortisol Rhythm (morning, midday, afternoon, evening) · DHEA (adrenal reserve) · Secretory IgA (gut immune function) · Personalised report: targeted nutrition, supplement & lifestyle recommendations · Identifies: adrenal fatigue, burnout, HPA axis dysfunction	£POA
Well Women's Health Screening *Comprehensive Female Health Panel*	A thorough women's health assessment covering hormonal balance, cardiovascular health, metabolic function, thyroid, and key cancer markers, empowering women to take charge of their wellbeing with complete clarity.	Female Hormone Profile · Hematology Profile · Thyroid Profile (TSH, FT3, FT4) · Diabetic Screening · Hepatitis Screening · Renal Function · Tumor Markers · Bone Health · STD Blood Screening · Lipid Profile · Urine Test · Liver Health · Stool Occult Blood Immune | Optional add-ons: HPV PCR, STD Profile PCR, Dutch Test, Adrenal Profile by Saliva	£337
Well Man Health Screening *Comprehensive Male Health Panel*	A wide-ranging men's health screen covering the key conditions most likely to affect men, including hormones, cardiovascular health, prostate, liver, kidney, thyroid, and diabetes markers, developed for males under 50.	Male Hormone Profile · Hematology Profile · Thyroid Profile · Diabetic Screening · Hepatitis Screening · Kidney Screening · Tumor Markers · Bone Health · STD Blood Screening · Lipid Profile · Urine Test · Liver Health · Stool Occult Blood Immune | Optional add-ons: Factor Y Genetics, STD Profile PCR, Dutch Test, Adrenal Profile by Saliva	£337

Private bloods & diagnostic testing continued

Treatment	About	Biomarkers/ Tests included	From
Multiple Autoimmune Screen *IgG & IgA Antibody Panel, Multi-Organ*	A comprehensive blood test detecting IgG and IgA antibodies against multiple tissues and organs, identifying early autoimmune activity across 9 body systems, even before symptoms appear.	Thyroid: Thyroglobulin, TPO · Stomach: Parietal Cell, Intrinsic Factor · Gut: ASCA, ANCA, Tropomyosin · Adrenal Glands: 21 Hydroxylase · Heart: Myocardial Peptide, Alpha-Myosin · Pancreas: Insulin, GAD 65 · Brain/CNS: Myelin Basic Protein, Cerebellar · Joints & Bones: Collagen, Arthritic Peptide · Reproductive System: Ovary/Testis · Blood draw, no fasting, results in 7–14 days	£194
Comprehensive Amino Acid & Nutrient Analysis *Urine Metabolic Profiling, 5 Domains*	A cutting-edge urine test using LC/MS/MS analysis to evaluate key biomarkers across amino acids, vitamins, minerals, and oxidative stress, providing highly personalised insights to optimise nutrition, energy, and cellular function.	1. Personalised Nutrition: B vitamins (B1–B12), antioxidants (Vits A, C, E), minerals (magnesium, zinc) · 2. Methylation & Detox: folate, B12, methylation support needs · 3. Oxidative Stress: cystine, taurine, glutathione precursors · 4. Digestive & Microbiome Health: amino acid metabolites, probiotic/enzyme needs · 5. Mitochondrial Function: B vitamins, magnesium, energy production markers · Urine collection at home or in-clinic	£129
Longevity Test *Cellular Age & Biological Ageing Profile*	A non-invasive buccal swab test using advanced mass spectrometry to analyse proteins and peptides from your cheek cells, revealing your biological age, key vital biomarkers, and personalised recommendations to support longevity.	Cellular Age (ProteoAge): biological vs chronological age comparison, Index of Aging score · Vital Biomarkers: Vitamin D turnover, ATP production, LDL Cholesterol (colour-coded Optimal/Moderate/Suboptimal) · Hallmarks of Aging: 12 scientifically validated aging processes including telomere length & mitochondrial function · Nutrition Score & Sports Score · Results in 2–3 weeks	£428
Neural Screen Plus *Neurological Autoimmunity, Early Detection*	A blood test detecting IgG, IgA, and IgM antibodies against brain and nervous system proteins, identifying autoimmune reactions linked to neurodegenerative and neuroinflammatory conditions before significant damage occurs.	Brain Proteins: Tau, Amyloid-beta, Synuclein · Receptors: NMDA, AMPA, Dopamine (DR1/DR2) · Infections: EBV, HSV, CMV, Streptococcal A · Blood-Brain Barrier: Claudin-5, Aquaporin-4 · Linked conditions: Alzheimer's, Parkinson's, MS, Neuromyelitis Optica, Peripheral Neuropathy, anti-NMDA receptor encephalitis · Blood draw, no fasting, results in 7–14 days	£POA

Prices are provided on request and may vary based on your individual requirements.
Please speak to a member of our team to discuss the most suitable testing pathway for you.
A personalised treatment plan with itemised fees will be provided prior to any treatment commencing.
