

Treatment Fee Guide 2026

Skin & Wellness

☎ 0161 503 0915 ✉ reception@yordental.co.uk

A note from YOR Dental

At YOR Dental, we believe that exceptional care and genuine wellbeing go hand in hand. Our fee guide is more than a price list, it is a reflection of our commitment to transparency, quality, and your individual journey.

Every treatment listed here is delivered by a highly skilled team in a calm, welcoming environment at the heart of MediaCityUK. We use only the finest materials, techniques, and technology, because you deserve nothing less.

Fees are shown as a guide and may vary based on your individual clinical needs, which will always be discussed openly with you before any treatment begins. We offer flexible payment options and are happy to create a phased plan that works with your life.

Contents

- 2 Preventive care & wellbeing
- 3 Smile aesthetics & whitening
- 4 Smile makeovers
- 5 Restorative dentistry
- 6 Root canal therapy
- 7 Dental implants
- 9 Extractions & oral surgery
- 10 Orthodontics & teeth straightening
- 11 Dental comfort & protection
- 11 Dentures and removable prosthetics
- 12 Diagnostics & imaging
- 13 Skin & facial aesthetics
- 14 Administrative & appointment fees
- 15 Wellness IV infusions
- 16 Private bloods & diagnostic testing

Flexible payment

We offer payment plans and phased treatment options to ensure exceptional care is accessible when you need it. Speak to our team to explore what works for you.

Appointment policy

We kindly ask for at least 48 hours' notice to change or cancel an appointment. Late cancellations may be subject to a fee. We appreciate your understanding, this protects availability for all.

Preventative care & wellbeing

Your foundation for lifelong dental health, proactive, precise, and deeply personal.

Treatment	About	From
Clarity new patient consultation <i>New patient examination</i>	Your comprehensive welcome to YOR, a thorough assessment of your oral health, aesthetics, and wellbeing, with a personalised roadmap to your ideal smile.	£83
Clarity follow-up review <i>Follow-up examination</i>	A focused check-in to monitor progress, review any changes, and keep your health plan aligned with your goals.	£54
Advice & assessment <i>Advise and Assessment</i>	Expert clinical guidance from our team, a dedicated session to explore your concerns and co-create the right pathway or you.	£65
Radiance GBT clean <i>Initial GBT clean</i>	Our Guided Biofilm Therapy clean uses ultrasonic precision and disclosing technology to remove biofilm, staining, and calculus, a deeply clean, deeply comfortable experience.	£126
Polish & perfect clean <i>Polish and perfect clean</i>	A targeted hygiene appointment to refresh, polish, and protect your teeth, ideal for maintenance between treatments, ideally 3 monthly.	£102
Intensive stain revival <i>Intensive stain removal</i>	A specialist session to lift surface staining and restore the natural brightness of your enamel, results you can see immediately.	£158
Extended hygiene session <i>Dental hygienist (extended)</i>	A longer hygiene appointment for those requiring more thorough care, unhurried, attentive, and tailored to you.	£97.50
Direct access hygiene <i>Dentist hygiene (direct access)</i>	See our skilled hygienist without a dentist referral, flexible, accessible preventive care at its best.	£126
Periodontal deep clean <i>New patient examination</i>	A clinical deep clean targeting the gum and bone environment, essential care for long-term periodontal health and stability for the teeth and bones.	£184
BioShield Fluoride Application <i>Topical fluoride</i>	A professional fluoride treatment to strengthen enamel, reduce sensitivity, and guard against decay, a small step with lasting impact.	£48
BioShield Fissure Seal <i>Fissure sealant</i>	A protective coating applied to the grooves of back teeth, guarding against decay in hard-to-reach areas, preventive dentistry at its most effective.	£47

Smile and aesthetic whitening

Crafted transformations that honour your natural beauty and amplify your confidence.

Treatment	About	From
Illuminate home whitening <i>Teeth whitening at home</i>	Our bespoke take-home whitening system, custom trays and professional-grade gel to brighten your smile at your own pace, safely and effectively.	£394
Illuminate enlighten whitening <i>Teeth whitening (Enlighten)</i>	The gold standard in whitening, the Enlighten system guarantees results, achieving shades beyond what in-chair treatments alone can accomplish.	£656
Illuminate Zoom whitening <i>Teeth whitening (Zoom)</i>	A premium in-chair whitening experience using advanced Zoom technology, dramatic results in a single session, with a radiant finish from day one.	£520
Glow-Up Composite Bonding <i>Bonding Glow Up (inc. whitening syringe)</i>	Tooth-coloured composite artfully shaped and polished to close gaps, refine chips, or refresh proportions, including a whitening syringe to enhance your result.	£200
Sculpt composite bonding <i>Composite bonding (from single tooth)</i>	Hand-crafted composite bonding by our aesthetic clinicians, transforming individual teeth with precision and an eye for natural beauty. Priced from a single tooth.	£250
Sculpt composite veneer <i>Composite veneer (single)</i>	A beautifully shaped and polished composite veneer, chairside, instantly improving shape, colour, and symmetry without the need for a lab.	£420-£525
Sculpt lab veneer <i>Lab-made composite veneer</i>	A laboratory-crafted composite veneer for superior finish and longevity, where artistry meets science for a truly seamless result.	£570
Lumière Porcelain Veneer <i>Porcelain veneer</i>	Ultra-thin porcelain veneers hand-fabricated to our precise specifications, the pinnacle of aesthetic dentistry, blending light and translucency for a lifelike, luminous smile.	£919
Contour edge bonding <i>Edge bonding (6 teeth)</i>	Composite applied precisely to the incisal edges of six teeth, a minimally invasive way to achieve length, symmetry, and smile harmony.	£1,575
Composite repair <i>Composite repair</i>	A swift, skilled repair to existing composite work, restoring aesthetics and function with minimal intervention.	£131

Smile makeovers

Comprehensive, co-designed transformations, your dream smile, delivered with care.

Treatment	About	From
Mini makeover <i>Mini smile makeover (4 full comp veneers and canine tidy up)</i>	Four full composite veneers with a canine refinement, a targeted transformation that creates balance and symmetry across your smile arc.	£2,205
Enhanced makeover <i>Enhanced smile makeover (8 teeth composite)</i>	Eight-tooth composite makeover with a full smile redesign, crafted for those seeking a complete aesthetic refresh with natural, lasting results.	£3,780
Full makeover <i>Full smile makeover (10 teeth composite veneers)</i>	Our most comprehensive composite transformation, ten veneers, fully customised to your facial features, skin tone, and smile aspirations.	£4,452
Diagnostic wax-up preview <i>Diagnostic wax-up (per tooth)</i>	A wax model of your proposed smile, created before any treatment begins, visualise your result and co-design your transformation with complete confidence.	£38 per tooth

Restorative dentistry

Restoring strength, function, and beauty, with materials and techniques chosen for longevity.

Treatment	About	From
Restore composite filling (small/medium) <i>Composite filling (S/M)</i>	A tooth-coloured composite restoration matched to your natural enamel, comfortable to place, beautiful in result, and built to endure.	£263
Restore composite filling (large) <i>Composite filling (L)</i>	A larger composite restoration, meticulously layered and contoured for strength and aesthetics, preserving as much natural tooth as possible.	£368
YOR ceramic crown <i>Ceramic crown/ Emax Crown</i>	A full-coverage ceramic or Emax crown, precision-milled or lab-crafted to restore a damaged tooth while blending seamlessly with your surrounding dentition.	£919
YOR porcelain onlay <i>Onlay porcelain</i>	A minimally invasive porcelain restoration covering the biting surface, preserving more tooth structure than a crown while delivering the same precision fit.	£919
YOR ceramic bridge <i>Bridge/ bridge single unit</i>	A fixed, natural-looking ceramic bridge to replace a missing tooth, crafted to exact proportions and shade-matched for an undetectable result.	£919
Recement crown <i>Recement crown</i>	Precise re-bonding of a crown or bridge using advanced dental cements, restoring function and fit with care and accuracy.	£87
Temporary dressing <i>Temporary dressing</i>	A carefully placed interim dressing to protect a tooth between appointments, keeping you comfortable and your treatment on track.	£100
Occlusal refinement <i>Occlusal equilibration</i>	Fine adjustment to your bite to eliminate interferences, reduce strain, and bring harmony to your jaw function.	£29
Post & core build-up <i>Post</i>	An internal post placed to restore a heavily broken-down tooth prior to crown placement, laying a strong foundation for a lasting result.	£102

Root canal therapy

Preserving your natural tooth, because nothing replaces what nature gave you.

Treatment	About	From
Preserve root treatment (anterior) <i>RCT anterior / root canal</i>	Root canal therapy to front teeth, precision endodontics in a calm, supported environment, saving your natural tooth for years to come.	£391-£411
Preserve root treatment (premolar) <i>RCT premolar</i>	Expert root canal therapy to premolar teeth, thorough cleaning and sealing of the root system with the goal of complete retention.	£508
Preserve root treatment (molar) <i>RCT molar</i>	Root canal therapy to molar teeth, our most complex endodontic work, performed with care, skill, and the very best instruments.	£594
Complex re-treatment (anterior) <i>Complex re-RCT anterior</i>	Re-treatment of a previously root-filled anterior tooth, addressing persistent infection with advanced techniques and a renewed commitment to saving your tooth.	£604
Complex re-treatment (premolar) <i>Complex re-RCT premolar</i>	Re-treatment of a premolar root canal, detailed, skilled reinstrumentation to resolve complex or previous treatment failures.	£683
Complex re-treatment (molar) <i>Complex re-RCT molar</i>	Our highest-complexity root treatment, re-treating a molar root canal with precision endodontic protocols and a commitment to natural tooth preservation.	£788

Dental implants

Permanent, natural-feeling tooth replacement, rooted in science, refined with artistry.

Treatment	About	From
Foundation Implant + Crown <i>Dental Implant placement + crown</i>	A single titanium implant and custom ceramic crown, the closest thing to a natural tooth, placed with precision and designed to last a lifetime.	£2,573
Healing Abutment <i>Healing abutment</i>	Placed after implant surgery to guide healthy tissue formation, an essential step in achieving a beautifully natural gum contour around your new tooth.	£271
Sinus Lift <i>Sinus lift</i>	A specialist procedure to build bone volume in the upper jaw, creating the optimal foundation for implant placement where bone has been lost.	£1,313
Sinus Lift with Bone Graft <i>Sinus lift with bone graft</i>	A combined sinus lift and bone graft procedure, maximising bone volume and quality for complex upper jaw implant cases.	£2,027
Block Bone Graft <i>Block bone harvesting and graft</i>	Harvesting and placing a block of bone to restore significant bone defects, a specialist surgical procedure supporting long-term implant success.	£704
Bond Graft (Small) <i>Bond Graft Small</i>	A targeted bone graft to augment a small deficiency around an implant site, precise, purposeful, and performed with care.	£415
Bond Graft (Large) <i>Bond Graft Large</i>	A larger bone graft procedure to restore substantial bone loss, creating the solid foundation your implant needs to integrate and last.	£625
Soft Tissue Augmentation <i>Soft Tissue augmentation</i>	A delicate procedure to enhance the gum tissue volume and contour around implants or teeth, aesthetic and functional in equal measure.	£368
Crown Lengthening <i>Crown lengthening</i>	A surgical procedure to expose more tooth structure, enabling better restoration or revealing a more balanced, harmonious smile line.	£120
Implant Retained Denture (Lower) <i>Implant retained denture – lower</i>	A lower denture secured by implants for exceptional stability, no adhesives, no movement, just confidence to eat, speak, and smile freely.	£7,500
Implant Retained Denture (Upper) <i>Implant retained denture – upper</i>	A full upper implant-retained denture, combining the security of implants with the aesthetics of a beautifully crafted prosthetic.	£7,500

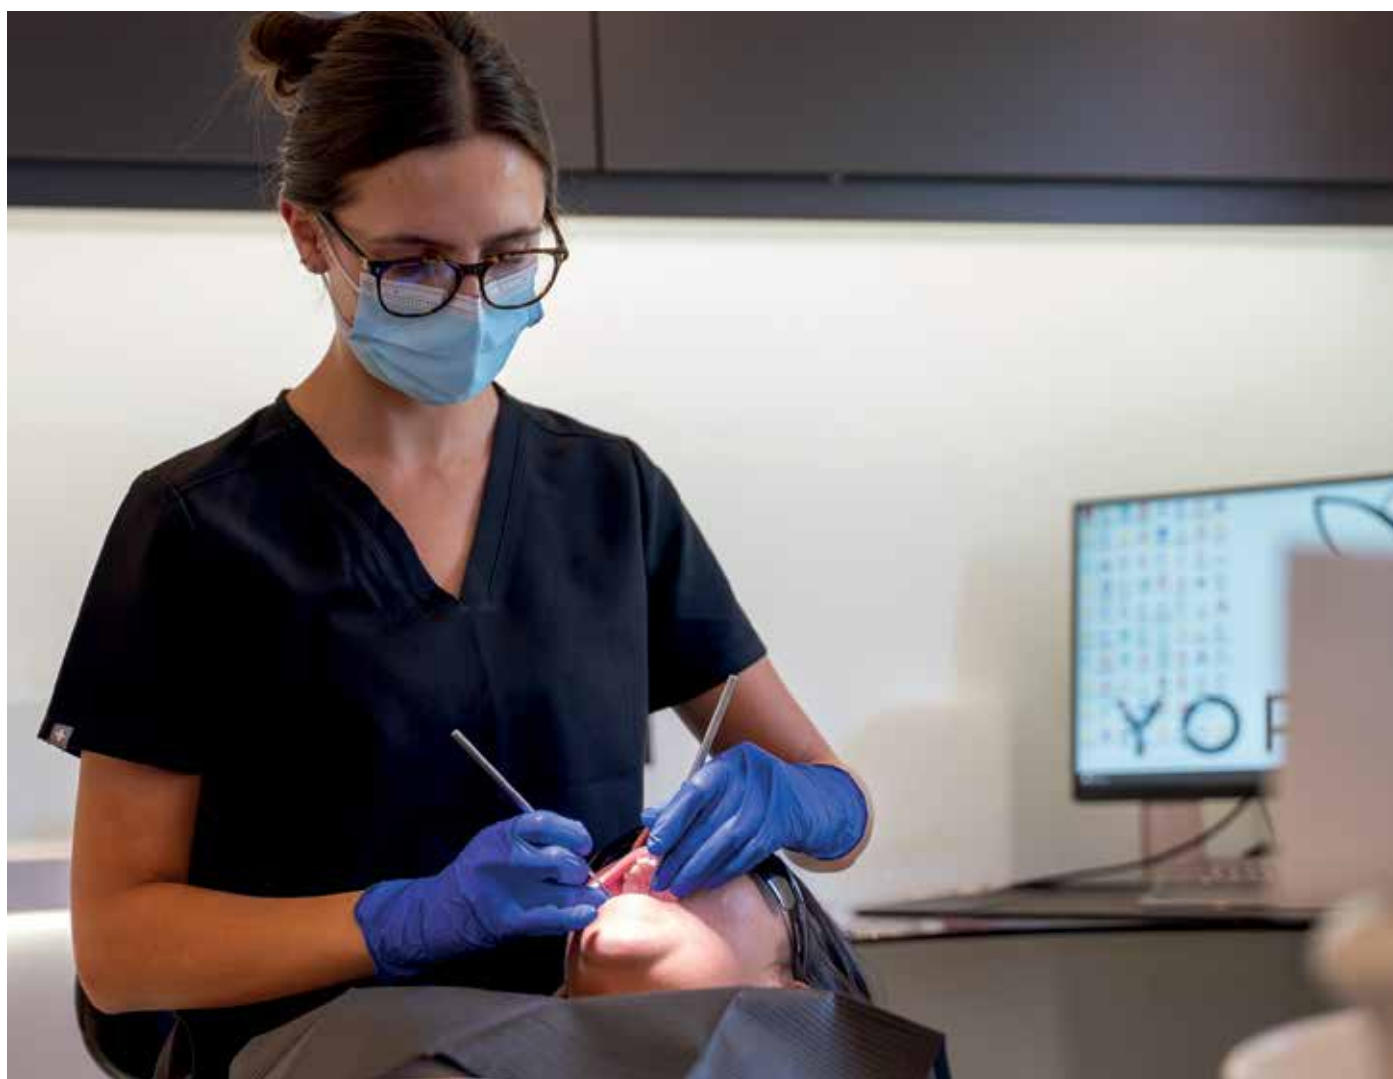

Dental implants continued

Treatment	About	From
Teeth in a Day, Lower Bridge <i>Teeth in a day – Lower Bridge</i>	A full fixed lower bridge delivered on the same day as implant placement, immediate function and aesthetics, without the wait.	£19,487
Teeth in a Day, Upper Bridge <i>Teeth in a day – Upper Bridge</i>	A full fixed upper bridge placed in a single visit, a transformative, life-changing result achieved with precision planning and surgical excellence.	£19,467
Teeth in a Day, Lower Denture <i>Teeth in a day – Lower denture</i>	A lower implant-supported denture delivered on the day of surgery, immediate stability and restored confidence from day one.	£10,382
Teeth in a Day, Upper Denture <i>Teeth in a day – Upper denture</i>	An upper implant-supported denture fitted the same day, comprehensive tooth replacement with immediate, lifechanging impact.	£10,382
Frenectomy <i>Frenectomy surgery</i>	A minor surgical procedure to release a restrictive frenum, improving function, comfort, and in some cases, smile aesthetics.	£368
Suture Removal <i>Suture removal</i>	A gentle post-surgical appointment to remove sutures and review healing, part of our commitment to supporting you through every stage of care.	£79
Surgical Guide <i>Surgical Guide</i>	A precision-milled surgical guide designed from your imaging data, ensuring implants are placed with exact accuracy and predictable outcomes.	£210

Extractions & oral surgery

Gentle, skilled, and supportive, surgical care delivered with compassion.

Treatment	About	From
Gentle Extraction <i>Simple extraction</i>	A carefully managed tooth removal in a calm, supportive environment, prioritising your comfort and recovery from first appointment to last.	£210
Complex Extraction <i>Complex extraction</i>	Surgical management of a more involved extraction, performed with skill, precision, and full post-operative support.	£302
Calm Sedation (up to 2 hours) <i>Sedation 2 hours</i>	IV sedation for those who experience dental anxiety, a deeply relaxed, comfortable experience so treatment can proceed peacefully. Extended sessions charged additionally.	£700

Orthodontics & teeth straightening

Confident alignment, achieved with the finest systems and the deepest care.

Treatment	About	From
Align Spark Clear Aligners <i>Spark Aligners (RRP £4,500)</i>	Spark's industry-leading clear aligner system, superior clarity, comfort, and precision. YOR's exclusive pricing makes world-class orthodontics accessible.	£2,999
Align Traditional Braces <i>Orthodontic braces</i>	High-quality fixed orthodontic braces for reliable, predictable tooth movement, a proven pathway to a straighter, healthier smile.	£2,200
Orthodontic Consultation <i>Orthodontic consultation</i>	A dedicated appointment to assess your smile, review straightening options, and design your personalised treatment pathway.	£100
Retain Fixed Retainer <i>Fixed Retainer Upper/Lower</i>	A discreet bonded retainer placed behind the teeth to hold your result, protecting your investment for the long term.	£173 each
Retain Removable Retainer <i>Removable retainer single</i>	A high-quality clear removable retainer, comfortable, precise, and essential for maintaining your beautifully aligned smile.	£194
Retain 3-Set Retainer Pack <i>3 sets of retainers</i>	Three sets of removable retainers, an investment in longevity, ensuring your smile stays exactly where it should be.	£473
Retainer Recement <i>Retainer Re Cement</i>	Swift, careful re-bonding of a fixed retainer, keeping your retention protocol intact and your teeth perfectly placed.	£87

Dental comfort & protection

Safeguarding your smile while you sleep, play, and live your life to the full.

Treatment	About	From
Guardian Night Guard <i>Night Guard / Hard Acrylic Splint</i>	A precision-fitted protective splint to prevent grinding damage, relieve jaw tension, and support long-term joint health, designed for nightly use.	£250-£295
Athlete's Shield <i>Sports guard</i>	A custom-fitted mouthguard offering superior protection for active lifestyles, far superior to over-the-counter options in fit, comfort, and safety.	£250
YOR CBT Bite Therapy <i>CBT</i>	Cognitive Behavioural Therapy-informed support for dental anxiety or bruxism-related stress, a unique wellbeing offering that addresses the whole person.	£158

Dentures & removable prosthetics

Beautifully crafted, precisely fitted, restoring your smile and your quality of life.

Treatment	About	From
Renew Full Denture (Upper or Lower) <i>Denture – Acrylic full upper/lower</i>	A full acrylic denture, crafted to natural proportions and shade-matched to suit your complexion, functional, comfortable, and beautifully made.	£1,260
Renew Partial Metal Denture <i>Denture – Partial upper/lower metal</i>	A chrome cobalt partial denture, lightweight, stable, and precision-engineered for a comfortable, secure fit.	£1,344
Renew Partial Resin Denture (Upper) <i>Denture – partial upper resin</i>	A resin-based partial upper denture, a natural-looking, affordable option for restoring missing teeth with care and craftsmanship.	£1,890
Renew Partial Mandibular Denture <i>Denture – mandibular partial resin based</i>	A lower partial resin denture, carefully designed for stability and aesthetics in the more challenging lower arch.	£1,171
Denture Repair <i>Denture repair</i>	Expert repair of a broken or damaged denture, carried out with precision to restore fit, function, and appearance.	£150

Diagnostics & imaging

Precision diagnosis, seeing the full picture before we begin.

Treatment	About	From
Full Arch CBCT Scan <i>CBCT dual arch</i>	A 3D cone beam CT scan of both arches, providing unparalleled diagnostic clarity for implant planning, complex cases, and detailed anatomical assessment.	£184
Full Mouth OPG X-Ray <i>Full mouth x-ray (OPG)</i>	A panoramic radiograph providing a complete overview of your teeth, bone, and jaw structures, an essential diagnostic tool.	£79
Periapical X-Ray <i>Small x-ray</i>	A targeted small x-ray to assess specific teeth or areas in detail, quick, precise, and low radiation.	£15
Study Models <i>Study Models</i>	Precise plaster models of your teeth used for planning, diagnosis, and case presentation, an essential step in complex treatment.	£83
Mounted Study Models <i>Study models Mounted</i>	Study models mounted on an articulator to analyse your bite and occlusion, used in planning orthodontic, prosthetic, and aesthetic cases.	£108

Skin & facial aesthetics

Where dental wellness meets facial harmony, science-led treatments for radiant, confident skin.

Treatment	About	From
Radiance Consultation <i>Skin Care Consultation</i>	A dedicated skin assessment with our aesthetics practitioner, understanding your concerns, goals, and the best evidencebased pathway to radiant skin.	£53
Sculpt Botox, 1 Area <i>Botox 1 area</i>	Precise muscle-relaxing treatment to soften expression lines in one area, a natural, refreshed result that enhances without altering.	£184
Sculpt Botox, 2 Areas <i>Botox 2 areas</i>	Anti-wrinkle treatment across two areas, carefully mapped to your facial anatomy for a balanced, harmonious effect.	£289
Sculpt Botox, 3 Areas <i>Botox 3 areas</i>	Our most comprehensive anti-wrinkle treatment, three areas addressed with precision, delivering a refreshed and naturally youthful result.	£368
Renew Obagi Chemical Peel <i>Obagi Chemical Peel</i>	A medical-grade Obagi chemical peel, stimulating cellular renewal, addressing pigmentation, fine lines, and texture for noticeably improved skin quality.	£105
Renew SkinPen Microneedling (Single) <i>SkinPen Microneedling x1 session</i>	A single SkinPen microneedling session, using controlled micro-channels to trigger the skin's own collagen production for visible rejuvenation.	£263
Renew SkinPen Microneedling (Course of 6) <i>SkinPen Microneedling x6 sessions</i>	A full course of six SkinPen microneedling sessions, the optimal protocol for sustained, progressive improvement in skin tone, texture, and vitality.	£1,260
BioJuve Biostimulator <i>BioJuve</i>	An advanced biostimulator treatment that supports deep skin regeneration, promoting collagen and elastin renewal for long-term skin health from within.	£420
BioJuve Starter Kit <i>BioJuve Starter Kit</i>	Your take-home BioJuve essentials, expert-selected products to maintain and extend the results of your in-clinic treatment.	£63

Administrative & appointment fees

Transparent, fair, and clearly communicated, because clarity matters.

Treatment	About	From
Emergency Appointment <i>Emergency appointment</i>	A dedicated urgent appointment for acute dental concerns, assessed, triaged, and managed by our team with speed and care.	£105
Late Cancellation Fee <i>Cancellation fee</i>	Applied when appointments are cancelled without adequate notice, protecting appointment availability for all our patients. See our Appointment Policy for full details.	£100

All fees are inclusive of VAT where applicable. Prices correct as of January 2026 and subject to change.

Wellness IV infusions

IV nutrient infusions crafted for energy, immunity, beauty, and recovery, nourishing you from within.

Infusion	Benefits & Key Ingredients	Price
Initial Wellness Consultation <i>Complimentary, suitability assessment</i>	A complimentary consultation to understand your health goals and identify the most beneficial infusion protocol for you. Required before your first infusion.	Complimentary
Infinite Energy Drip <i>Signature Multivitamin Infusion</i>	Restore your foundation and replenish essential nutrients, ideal for fatigue, low energy, and ongoing wellness support. Includes Multivitamin Complex, B12 Complex, and Vitamin C.	£150
Radiant Journey Drip <i>Hair & Skin Vitality Infusion</i>	Nourish beauty from within, supporting healthy hair growth, skin clarity, and cellular renewal. Includes BComplex and Biotin.	£225
Unity Shield Drip <i>Immune Support Infusion</i>	Strengthen your natural defences and fortify your resilience. Ideal for seasonal protection, travel preparation, and highstress periods. Includes a double dose of Vitamin C.	£180

Hydra Renew Drip <i>Total Hydration & Electrolyte Infusion</i>	Deep hydration and rapid electrolyte balance to refresh, restore performance, and boost mental clarity. Supports muscle and joint comfort and overall vitality. Includes Saline base, Vitamin C, and Magnesium.	£350
Performance & Recovery Drip <i>Sports Performance & Recovery Infusion</i>	Designed for active lifestyles, supporting muscle recovery, metabolic strength, and fitness regeneration. Helps reduce muscle soreness and supplies essential nutrients for peak performance. Includes B-Vitamins, Vitamin C, Glucose, and B12 Hydroxocobalamin.	£350
Infinite Light Push <i>Premium Add-On, Glutathione Boost</i>	Add to any infusion for a powerful antioxidant push supporting cellular detoxification, brighter skin, reduced oxidative stress, and overall vitality enhancement.	£80

Private bloods & diagnostic testing

Advanced laboratory testing available through YOR Dental, precision health insights to complement your oral and overall wellbeing.

All tests are carried out in partnership with Aqua Medical Laboratories (Doctor Wellness) and are available to book through YOR Dental. A consultation with our team will help identify the most relevant panel for your individual needs. Prices shown are from prices, the starting cost for each test. Turnaround times (TAT) are noted where they exceed 48 hours.

Test	About	Biomarkers/ Tests included	From
Wellbeing Consultations			
Initial Health Consultation <i>Complimentary, suitability assessment</i>	A complimentary consultation to understand your health goals and identify the most beneficial blood test for you. Required before your first set of bloods.		Complimentary
Breakdown & Recommendation Report <i>Results Review, Personalised Report</i>	A detailed, easy-to-understand breakdown of your results with a dedicated member of our team, explaining what each marker means for you and the personalised next steps and recommendations to support your health.		£60
Core Blood Panels			
Thyroid Function Test <i>Thyroid Screening</i>	A focused blood test assessing thyroid-stimulating hormone and, where indicated, free thyroid hormones, an efficient first check for fatigue, weight change, or mood shifts linked to thyroid function.	TSH · Free T4 (FT4) · Free T3 (FT3), where clinically indicated	£95
Testosterone Monitoring <i>Hormone Screening</i>	A single-marker blood test tracking total testosterone levels, useful for monitoring hormone therapy, fatigue, or changes in libido and muscle mass.	Total Testosterone	£95
Beta-hCG Test <i>Pregnancy & Tumour Marker</i>	A blood test measuring Beta-hCG, most commonly used to confirm pregnancy but also a recognised tumour marker in certain clinical contexts.	Beta-hCG (Human Chorionic Gonadotropin)	£115
AMH Test <i>Ovarian Reserve Screening</i>	A blood test measuring Anti-Müllerian Hormone, a key indicator of ovarian reserve used to support fertility planning and family-building decisions.	Anti-Müllerian Hormone (AMH)	£156
Rheumatology Screen <i>Autoimmune Marker Panel</i>	A blood panel screening for the key autoimmune markers associated with inflammatory joint conditions, an important first step where rheumatoid or connective tissue disease is suspected.	Rheumatoid Factor (RF) · Antinuclear Antibodies (ANA) · Anti-CCP	£125
Rheumatology Screen Plus <i>Extended Autoimmune Panel</i>	An extended autoimmune panel building on our core rheumatology screen with additional antibody markers, providing a fuller picture where autoimmune disease is a concern.	Rheumatoid Factor (RF) · ANA · Anti-CCP · Smooth Muscle Antibodies · Anti-Nuclear Antibodies	£205
Epstein-Barr Virus Antibodies <i>Infection Status Screening</i>	A blood test measuring EBV antibodies to assess current or past infection status, helpful in investigating unexplained fatigue or glandular fever-type symptoms.	Anti-Tissue Transglutaminase (tTG) · Total IgA	£175

Private bloods & diagnostic testing continued

Test	About	Biomarkers/ Tests included	From
Core Blood Panels continued			
Coeliac Screening <i>Gluten Sensitivity Blood Test</i>	A blood test screening for the antibodies associated with coeliac disease, a valuable first step for those experiencing digestive symptoms linked to gluten.	Anti-Tissue Transglutaminase (tTG) · Total IgA	£175
Essential Iron Check <i>Iron Status Panel</i>	A focused panel assessing your body's iron stores and transport, useful for investigating fatigue, pallor, or suspected anaemia.	CBC · Iron · TIBC · Ferritin	£180
Kidney Health Test <i>Renal Function Panel</i>	A blood test assessing how efficiently your kidneys are filtering waste from the blood, an important marker of overall metabolic health.	Creatinine · Urea · eGFR	£120
Liver Health Test <i>Liver Function Panel</i>	A comprehensive liver function panel assessing enzyme activity and protein levels, helping to identify early signs of liver stress or dysfunction.	ALT · AST · GGT · Total Bilirubin · Direct Bilirubin · Indirect Bilirubin · Albumin	£120
Bone Health Panel <i>Bone Metabolism Screening</i>	A blood panel assessing key markers of bone metabolism, supporting early identification of bone health concerns.	Uric Acid · ALP · Phosphorus	£95
Cholesterol Check <i>Lipid Profile</i>	A core lipid panel assessing your cardiovascular risk profile, an essential baseline for heart health monitoring.	Cholesterol · HDL · LDL · Triglyceride	£110
Diabetes Screening <i>Blood Sugar & Metabolic Health</i>	A blood test screening for type 1 and type 2 diabetes, detecting early changes in glucose regulation to enable timely lifestyle or medical intervention before serious complications arise.	Fasting Blood Glucose · HbA1c	£110
Tiredness (Anaemia) Assessment <i>Fatigue & Anaemia Screening</i>	A focused panel investigating the most common nutritional causes of tiredness and anaemia, guiding targeted supplementation and further review where needed.	CBC · Ferritin · B12 · Folic Acid (B9) · Vitamin D	£180
Nutritional Check <i>Micronutrient Panel</i>	A broader nutritional panel assessing key vitamin and mineral status, supporting energy, immunity, and overall wellbeing.	Ferritin · Folic Acid (B9) · Vitamin D · Vitamin B12 · Magnesium · Zinc · CBC	£250
Essential Vitamins Check <i>Vitamin D & B12 Screening</i>	A quick, focused check of two of the most commonly deficient vitamins linked to energy, mood, and immune health.	Vitamin D · Vitamin B12	£95
Vitamin Profile <i>Comprehensive Vitamin Panel</i>	An in-depth panel measuring the full spectrum of key vitamins, providing detailed insight to guide personalised supplementation.	Vitamin A · B1 · B2 · B6 · B12 · D · E	£480

Private bloods & diagnostic testing continued

Test	About	Biomarkers/ Tests included	From
Digestive & Gut Health			
Digestive Health Panel <i>Gut Health Screening</i>	A blood and stool-based panel investigating common causes of digestive symptoms, including infection markers and gastrointestinal pathogens.	Stool H. pylori · Faecal Markers · PCR for GI Pathogens	£180
Digestive Health Extend <i>Extended Gut & Systemic Panel</i>	An extended digestive workup combining our core digestive health panel with inflammatory markers, occult blood screening, liver health, and a full blood count for a broader systemic picture.	Digestive Health Panel + Calprotectin · Faecal Occult Blood (QFIT) · Liver Health · Full Blood Count · Helicobacter Pylori Antigen (Stool)	£370
Rapid Candida Albicans PCR <i>Fungal Infection Screening</i>	A rapid PCR test detecting Candida albicans, supporting quick, accurate diagnosis of suspected fungal overgrowth.	Candida Albicans (PCR detection)	£145
GI Stool PCR <i>Gastrointestinal Pathogen Panel</i>	A comprehensive stool PCR test screening for bacterial, viral, and parasitic DNA, providing rapid, precise identification of gut infections.	PCR detection of GI bacterial, viral & parasitic DNA	£266
Helicobacter Pylori Antigen <i>Stomach Infection Screening</i>	A stool antigen test detecting Helicobacter pylori, the bacterium most commonly linked to stomach ulcers and chronic gastritis.	Helicobacter Pylori Antigen (Stool)	£104
Urine Microscopy <i>Urinary Health Screening</i>	A laboratory microscopy analysis of a urine sample, used to investigate suspected urinary tract infection or other urinary abnormalities.	Microscopic urine analysis	£120
Aqua Gut Microbiome Test <i>Stool DNA Analysis, Gut Microbiota</i>	A stool DNA analysis profiling your gut microbiome to detect bacterial imbalances, assess dysbiosis severity, and guide dietary, probiotic, and lifestyle interventions for optimal gut health.	Dysbiosis Index (DI): score 1–5 · Functional Imbalance Profiles: butyrate production, mucosa protection, inflammation · Bacteria Abundance Table · Results in 7–10 days · At-home stool collection kit	£380
Oral Microbiome Test <i>Dental Bacterial Analysis</i>	A dedicated oral microbiome swab identifying the presence and levels of key periodontal pathogens, supporting a targeted approach to gum health.	Detection of key periodontal pathogens via oral swab	£229

Comprehensive Wellness Panels			
General Wellness <i>Foundational Health Check</i>	A broad foundational health screen covering blood count, organ function, and metabolic markers, an efficient entry point into proactive health monitoring.	CBC · Liver Health · Kidney Health · Lipid Profile · Diabetic Screen · Essential Vitamins · Thyroid Profile · Urine Analysis · Uric Acid · CRP	£230
General Health & Wellness Profile <i>Everyday Health Check</i>	A concise general wellness panel covering the essentials, blood count, thyroid, kidney, iron status, and key metabolic markers, ideal as a routine annual check.	Thyroid Profile · CBC · Kidney Health Profile · Uric Acid · Vitamin B12 · Vitamin D · Fasting Glucose · HbA1c · Ferritin · Iron · Phosphorus · Calcium · Lipid Profile · Liver Function (Basic)	£190
Well Man Profile <i>Men's Health Panel</i>	A comprehensive men's wellness panel covering hormonal, metabolic, and organ health, giving a rounded view of everyday health status.	CBC · Liver Health · Kidney Health · Lipid Profile · Diabetic Screen · Essential Vitamins · Thyroid Profile · Urine Analysis · Uric Acid · CRP · Total Testosterone	£310
Well Women Profile <i>Women's Health Panel</i>	A comprehensive women's wellness panel covering hormonal, metabolic, and organ health, giving a rounded view of everyday health status.	CBC · Liver Health · Kidney Health · Lipid Profile · Diabetic Screen · Essential Vitamins · Thyroid Profile · Urine Analysis · Uric Acid · CRP · Estradiol (E2)	£310
Well Man Essential Profile <i>Men's Core Screening</i>	A streamlined men's health check covering liver, kidney, thyroid, and prostate markers alongside core metabolic health.	ALT · AST · Glucose · Cholesterol · Triglyceride · TSH · Ferritin · CBC · Urine Analysis · Creatinine & eGFR · Vitamin D · Total Testosterone · PSA Total	£165
Well Woman's Essential Profile <i>Women's Core Screening</i>	A streamlined women's health check covering liver, kidney, thyroid, and reproductive markers alongside core metabolic health.	ALT · AST · Glucose · Cholesterol · Triglyceride · TSH · Ferritin · CBC · Urine Analysis · Creatinine & eGFR · Vitamin D · Estradiol (E2) · CA-125	£165
Well Man Health Screening <i>Comprehensive Male Health & Tumour Marker Panel</i>	A wide-ranging men's health screen covering the key conditions most likely to affect men, including hormones, cardiovascular health, prostate, liver, kidney, thyroid, and tumour markers.	Iron · Thyroid Profile · Total PSA · CRP · Liver Function · Lipid Profile · Kidney Health · Phosphorus · Calcium · Albumin · Total Protein · Fasting Glucose · HbA1c · Vitamin D · Vitamin B12 · Folate · CEA · ESR · CBC · SHBG · Total Testosterone · Free Androgen Index · Prolactin · FSH · LH	£325
Well Woman's Health Screening <i>Comprehensive Female Health Panel</i>	A thorough women's health assessment covering hormonal balance, cardiovascular health, metabolic function, thyroid, and key screening markers, empowering women to take charge of their wellbeing with complete clarity.	Vitamin D · ESR · Liver Function · Lipid Profile · Kidney Health · Phosphorus · Calcium · Albumin · Total Protein · Fasting Glucose · HbA1c · Thyroid Profile · Vitamin B12 · Folate · Iron · Faecal Occult Blood · CBC · Free Androgen Index · Prolactin · FSH · CRP · LH	£325
Wellness 360 <i>Complete Systemic Health Panel</i>	Our most complete wellness panel, combining blood count, organ function, metabolic, thyroid, nutritional, and bone health markers into a single comprehensive check.	CBC · Liver Health · Kidney Health · Lipid Profile · Diabetic Screen · Thyroid Profile · Urine Analysis · CRP · Nutritional Check · Bone Health	£580

Weight Management & Metabolic Health			
GLP-1 Baseline Profile <i>Pre-Treatment Metabolic Panel</i>	A baseline metabolic panel completed before starting GLP-1 therapy, checking organ function, blood sugar, and pancreatic health to ensure safe, informed treatment planning.	Metabolic Profile (CBC · Liver Function · Kidney Function · Lipid Profile · HbA1c · Fasting Glucose · CRP) · Pancreatic Enzymes · Thyroid Function Test. TAT: 2–3 days	£155
GLP-1 Follow-Up Profile <i>Ongoing Treatment Monitoring</i>	A follow-up panel for those on GLP-1 therapy, monitoring organ function and nutritional status to support safe, sustained treatment and wellbeing.	Metabolic Profile · Pancreatic Enzymes · Nutritional Deficiency (Vitamin B12, Folate, Vitamin D, Ferritin, Magnesium). TAT: 1–2 days	£165
Weight Management Profile <i>Comprehensive Metabolic & Hormone Panel</i>	A detailed panel for those on a structured weight management journey, combining metabolic, hormonal, and nutritional markers to guide a safe, personalised plan.	Metabolic Profile · Hormone Testing (Thyroid Function, Total Testosterone, Estrogen, HbA1c, LH, FSH) · Nutritional Deficiency (Vitamin B12, Magnesium, Vitamin D, Folate). TAT: 1–2 days	£329
Weight Management Add-On Bundle <i>Functional Medicine Add-On Tests</i>	An optional add-on bundle for weight management patients wanting a deeper functional view of gut health, food sensitivities, and adrenal function.	Aqua Gut Microbiome (7–10 days) · Aqua Food Map Intolerance (2–3 days) · Adrenal Stress Index (2–3 days)	£780
Skin, Acne & Hormone Health			
Skin Glow Profile <i>Nutritional & Oxidative Skin Panel</i>	A skin-focused blood panel assessing the key nutrients and oxidative stress markers linked to skin clarity, radiance, and healthy ageing.	CBC · Magnesium · Zinc · Vitamin D · Vitamin B12 · Folate · Iron · Ferritin · Total Oxidative Stress. TAT: 7–10 days	£330
Acne Profile Essential <i>Hormonal Acne Screening</i>	A focused hormonal and nutritional panel investigating the most common underlying drivers of acne, guiding a targeted treatment approach.	Aqua Food Map Intolerance Test · Estrogen · Testosterone · LH · FSH · DHEAS · TSH · FT3 · FT4 · Vitamin D · HbA1c · Vitamin B12 · Folate · CBC · Ferritin. TAT: 2–3 days	£480
Comprehensive Acne Screening Profile <i>Full Hormonal & Thyroid Acne Panel</i>	Our most detailed acne investigation, combining a full reproductive hormone and thyroid panel with a food sensitivity test, for persistent or hormonally-driven acne.	Progesterone · Estradiol · Prolactin · FSH · LH · DHEA-S · Cortisol · DHEA · TSH · FT3 · FT4 · Anti-TPO · Anti-TG · Vitamin D Total · HbA1c · Aqua Food Map Sensitivity Test. TAT: 2–3 days	£580

Genetic & DNA Testing			
Factor X Test <i>Genetic Wellness Screening, 33 Conditions</i>	A saliva DNA screen evaluating predisposition to 33 health conditions across 10 categories, empowering proactive, preventive steps based on your unique genetic blueprint.	Cardiovascular: AF, CAD, Cholesterol, Stroke, MI · Metabolic: Hypothyroidism, Obesity, T2 Diabetes · Cancer Risk: Breast, Lung, Colorectal, Prostate, Endometrial · Neurological: Alzheimer's, Parkinson's, MS, Migraine · Bone & Joint · GI · Eye · Respiratory · Gynaecological · Skin. TAT: 3–4 weeks	£380
Factor Y Test <i>Nutrition & Sports Performance Genetics</i>	A DNA analysis revealing how your genetic profile shapes your nutritional needs, athletic potential, and lifestyle habits, enabling you to train smarter, eat better, and perform at your peak.	Diet & Weight: macronutrient response, weight management · Deficiencies: vitamins & minerals · Eating Behaviour: snacking, caffeine · Sensitivities: lactose, gluten · Fitness: cardiovascular/metabolic, muscle strength, endurance, injury risk · Habits: alcohol, caffeine, nicotine. TAT: 3–4 weeks	£380
Factor Z Test <i>Pharmacogenomics, Personalised Medication</i>	A saliva DNA test revealing how your genetics affect medication response, enabling safer prescribing, optimal dosing, and reduced risk of adverse drug reactions across 14 medical specialties.	Drug Metabolism: CYP450 enzyme activity · Drug Efficacy: response prediction, dose optimisation · Adverse Reaction Risk: genetic markers · Medication Categories: Cardiology, Neurology, Oncology, Pain Management, Psychiatry, Diabetology, Pulmonology + 7 more. TAT: 3–4 weeks	£380
Skin Care DNA Test <i>Genetic Skincare Profile, 29 Parameters</i>	A saliva DNA test analysing 29 skin and hair parameters, providing genetically personalised skincare recommendations from acne and ageing to sun response and vitamin needs.	Skin & Hair (15): Acne, Alopecia, Atopic Dermatitis, Melasma, Psoriasis, Vitiligo, Wrinkles, Skin Ageing + more · Sun & Skin (4): UV Sensitivity, Sun Spots, Tanning Response · Skin Nutrition (10): Vitamins A, B6, B9, B12, C, D, E, K · Selenium & Antioxidant needs. TAT: 3–4 weeks	£380
Deep Sleep DNA Test <i>Sleep Genetics, 10 Parameters</i>	A saliva DNA test revealing your genetic sleep blueprint, covering chronotype, sleep disorders, and caffeine sensitivity to provide actionable, personalised guidance for restorative rest.	Chronotype (Morning vs Evening) · Narcolepsy · Sleep Apnoea · COAD · Restless Leg Syndrome · Snoring · Quality of Sleep · Nocturnal Sleep Episodes · Caffeine-Related Insomnia · Results with genetic counsellor review. TAT: 3–4 weeks	£380
Genetic Hair Loss Test <i>Hair Loss Predisposition Screening</i>	A saliva DNA test assessing genetic predisposition to pattern hair loss, helping to guide early, targeted intervention and treatment planning.	Genetic markers associated with androgenetic alopecia (pattern hair loss). TAT: 7–10 days	£380
Factor Y Sport & Nutritional Profile <i>Sports Genetics, 3–4 Week Turnaround</i>	Our sports genetics DNA test, available as a standalone panel with an extended turnaround for those wanting a purely nutrition- and performance-focused report.	As per Factor Y Test panel. TAT: 3–4 weeks	£380

Longevity & Anti-Ageing			
Longevity DNA Test <i>22 Hallmarks of Ageing</i>	A genetic longevity test analysing 22 scientifically recognised hallmarks of biological ageing, providing a broad genetic view to complement lifestyle and biomarker-based ageing assessments.	22 hallmarks of ageing (genetic analysis). TAT: 3–4 weeks	£510
Anti-Ageing Profile <i>Metabolic, Hormone & Nutrition Panel</i>	A blood panel targeting the core biological systems linked to healthy ageing, metabolism, sex hormones, nutrition, and thyroid function, to guide a personalised longevity plan.	Metabolic Panel · Sex Hormone Panel · Nutritional Deficiencies · Thyroid Function	£450
NAD+ Test <i>Cellular Energy & Longevity Biomarker</i>	A blood test measuring NAD+ (Nicotinamide Adenine Dinucleotide) levels, a key cellular coenzyme linked to energy metabolism, DNA repair, and ageing. An extended option adds a glutathione marker for a fuller oxidative-stress picture.	NAD+ Total · Extended option adds Glutathione · Report includes NAD+ status and supplementation guidance	£380–£580
Oxidative Stress Index <i>Cellular Ageing Add-On</i>	An add-on blood marker assessing oxidative stress in the body, a key contributor to cellular ageing and chronic disease risk.	Total Oxidative Stress Index	£480
Omega-3/6 Index <i>Fatty Acid Balance Add-On</i>	An add-on blood test measuring the balance of omega-3 to omega-6 fatty acids, an important marker for cardiovascular and inflammatory health.	Omega-3 : Omega-6 ratio	£305
Coenzyme Q10 <i>Cellular Energy Add-On</i>	An add-on blood marker measuring Coenzyme Q10 levels, a nutrient central to mitochondrial energy production and cellular health.	Coenzyme Q10 level	£305

All prices shown are from prices and represent the starting cost for each test; the final price may vary based on your individual requirements. Prices marked P.O.A. are provided on request. Please speak to a member of our team to discuss the most suitable testing pathway for you.

A personalised treatment plan with itemised fees will be provided prior to any treatment commencing.
